### APPROXIMATE SPREADER SETTINGS

SPREADER	GOOD FERTILITY	HIGH FERTILITY
BIG FOOT	K-L	N-P
SPYKER	5-6	6-7
LESCO	G-I	J-L
CYCLONE B3-PRO	4-5	6 1/2-7
EARTHWAY	15-16	18-20

**NOTE:** The above settings are approximate. Due to atmospheric conditions, the speed you walk, and wear in spreaders it is impossible to be 100% accurate. It is wise, when you are in doubt or if your spreader is not listed above, to set your spreader at a low rate and then measure the coverage of only one pound of turf food. If you are under applying, increase the rate; if you are over applying, decrease the rate. Always clean out spreader after each use.
